

AWSD THREATS

AWSD Opportunities

SWOT Survey Data--Threats

1. Threats: How severely do you think an incident involving a failure of system backups would impact our mission?	2. Threats: How probable do you think an incident involving a failure of system backups is in the next 5 years?	3. How severely do you think an incident involving water storage would impact our mission?	4. Threats: How probable do you think an incident involving water storage is within the next 5 years?	5. Threats: How severely do you think a loss of expertise would impact our mission?	6. Threats: How probable do you think a loss of expertise within the next 5 years is?	7. Threats: How severely do you think a natural disaster such as fire, drought, or flood would impact our mission?	8. Threats: How probable do you think a natural disaster within the next 5 years is?	9. Threats: How severely do you think a mechanical failure such as dam failure, vandalism, or main breaks would impact our mission?	10. Threats: How probable do you think a mechanical failure within the next 5 years is?	11. Threats: How severely do you think a failure to meet regulatory compliance would impact our mission?	12. Threats: How probable do you think a failure to meet regulatory compliance within the next 5 years is?	13. Threats: How severely do you think a challenge to or loss of water rights would impact our mission?	14. Threats: How probable do you think a challenge to water rights within the next 5 years is?	15. Threats: How severely do you think a sharp rise in district population would impact our mission?	16. Threats: How probable do you think a sharp rise in population within the next 5 years is?

SWOT Survey Data--Opportunities

17. Opportunities: How much benefit do you think there could be if we expand the district/ system, such as consolidating operations with MMWS or providing service to a greater area?	18. Opportunities: How difficult/ probable do you think it will be to expand or consolidate the district would be?	19. Opportunities: How much benefit do you think there could be if we upgrade our systems? Upgrades may include such things as a raw water fire hydrant system, customer upgrades, or the elimination of SPOFs.	20. Opportunities: How difficult/ probable do you think it will be to implement system upgrades?	21. Opportunities: How much benefit do you think there could be if develop new revenue streams such as grants or commercial water sales?	22. Opportunities: How difficult/ probable do you think it will be to develop new revenue streams?	24. Opportunities: How much benefit do you think there could be if we adopt new administrative tools such as google drive, web domain, and membership access?	23. Opportunities: How difficult/ probable do you think it will be to adopt new administrative tools?
